Department: Health Department
Reports to: Health Director and Public Health Nurse Manager-Clinics
Salary: (min) \$48,744.20 to (max) \$53,898.44
Union: AFSCME Local 1705A

SUMMARY

Responsible for assisting in the development, implementation and management of a public health program for the City of Lowell. Responsibilities include, but are not limited to, case management and surveillance of reportable and communicable diseases; as well as identifying disease trends in order to initiate control measures which may include coordinating and organizing public health clinics.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

- Participates in a comprehensive public health program consistent with the MA guidelines, regulations and statutes governing nursing and public health as well as local public health policy.
- Consults with the Health Director, Public Health Nurse Manager – Clinics, and other appropriate managers to establish, review and revise policies, procedures and specific programs for comprehensive public health services.
- Investigates and case manages reportable disease as outlined in 105 CMR 300.000 Reportable Diseases, Surveillance and Isolation and Requirement and 105 CMR 365.000 Standards for Management of TB outside hospitals.
- Performs disease surveillance through the regular collection, monitoring, and analysis of data relevant for the control and prevention of reportable diseases.
- Responds to disease surveillance by providing case management, health counseling and referrals to appropriate community resources.
- Attend regional tuberculosis (TB) clinic at Saints Medical Center as needed; provides case management to Lowell TB clients; assists with the coordination of admission and discharge planning between hospitals or patient clinics, private doctors and TB control.
- Provides short term coverage for other Lowell Public Health Nurses for time-sensitive duties.
- Organizes and implements state and city programs such as Immunizations, Tuberculosis and Communicable Disease Surveillance.
- Uses population-based data collection to plan and evaluate the public health program with the Health Director, Public Health Nurse Manager-Clinics

- Collaborates with other professional community providers in assessing, planning, implementing and evaluating programs so as to maximize and coordinate services and prevent duplication.
- Collaborates with surrounding post-secondary institutions to provide practicum experience in public health and education.
- Prepares regular written reports for PH officials, city officials; utilizes/maintains web based databases established by MDPH (including but not limited to MAVEN); creates and utilizes database/programs to track and/or organize health or client information;
- Be familiar with the Department's Emergency Operations Plan and its activation in an emergency requiring medical and public health response.
- Plan, organize and conduct immunization clinics according to community needs including any appropriate billing.
- Follows MDPH Vaccine Management.
- Disseminates current information from MDPH and CDC to public and private providers.
- Provides health information/education upon request from residents, city officials, employees as well as School Health Unit.
- Provides documentation of health records to clients.
- Maintains and disposes of client health records according to Federal, State and City guidelines.
- Applies appropriate nursing theory as the basis for decision making in the public health setting; seeks further expert consultation and/or supervision when appropriate.
- Attends professional continuing education programs including seminars, ICS (Incident Command System) trainings, conferences and staff meetings to stay current on public health updates and changes during work hours.
